DETAILED ACTION

This Office action is responsive to communication received 04/04/2005 –
Amendment.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 1-9 are allowable over the prior art references of record in view of applicant's remarks on page 5, line 19 through page 7, line 6 and without recourse to the further arguments regarding center of gravity included on page 7, first complete paragraph. The newly cited references to Kohno ('678), Nishio ('681), Kouno ('682) and Kohno ('156), while each detailing a location for the center of gravity as being located closer to the heel, do not show, suggest or render obvious a center of gravity located within the claimed combination of ranges including the range above the horizontal plane passing through the face center, the range toward the rear end from a vertical plane containing the shaft axis and parallel to a horizontal line tangent to the face center and the range toward the toe end from a plane containing the shaft axis that is normal to the vertical plane, as required by claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
